Profile

Software Developer at CGI with over 2 years of expertise in various programming languages and frameworks, across multiple projects.

Work Experience

Full Stack Developer 　 **Aug 2022 - Present**

CGI Inc.

- Development of a webapp which allows visualization, analysis, manipulation and export/import of data with responsive design using **Angular 14**, including integration with APIs to fetch and display data from endpoints;

- Creation of web forms with data validation using **React Bootstrap**;

- Understanding and using AI models to solve problems and create technical documentation faster (**Microsoft Copilot**);

- Improvement of a webapp backend calculations (**PHP**) and portal rebranding (**Angular**, replicating **Figma** designs);

- Support the development and maintenance of other projects using tools like **Azure Data Factory, Microsoft SQL Server, C#, Typescript/Javascript,** and **SAP BO**; Meetings with the clients to understand and implement their ideias;

Education

Bachelor's Degree in Electronics, Telecommunications and Computer Engineering 　 **Sep 2016 - Sep 2021**

Instituto Superior de Engenharia de Lisboa (ISEL)

Final Project: Open Source OPC-UA Gateway (17/20)

Relevant curricular units (grade 0-20):
Programming I, II & III [Fundamentals in **C** / App development in **Java**](15), Computer Architecture (15), Databases (14), Internet Networks (16)

Complementary Skills

- **Additional Digital Capabilities:**

VS Code, .NET Framework, JavaScript,Docker, IIS, WPF, JSON, Github, Bitbucket, DevOps, Microsoft Excel, Postman, Swagger, Oracle

- **Soft Skills:**

Hardworker, Teamworker, Curious, Fast-Learner

Licenses and Certifications

React - The Complete Guide 2023 (incl. React Router & Redux)

Core Concepts: Javascript, Events, Hooks, Context API, Redux, HTTP Requests, Routing, Forms

Certification authority: **Udemy**

Data Analysis Industry Trainning

Core Concepts: SPSS, Statistical Tests

Certification authority: **Brainnest Consulting**

Excel Essential Training (Office 365/Microsoft 365)

Core Concepts: Basic functionalities

Certification authority: **LinkedIn Learning**

Volunteering

AMO (Associação Mãos à Obra) - Fire surveillance [Aug 2021]

Hobbies and Interests

After 10+ years of being a **competitive swimmer** with dozens of participations in the Portuguese National Championships, I still enjoy swimming for a bit. I also like to hang out with friends and to play games with them.

I like to play board games like chess from time to time and I'm currently building my personal website using the skills I acquired through the React Course and in my job at CGI.

Because my university course wasn't only focused on programming I'm always looking to improve my coding skills. Sometimes I do coding challenges to learn more and to help me on my journey to become a better Full-Stack and/or Frontend developer!
